BLUETOOTH CONNECTIVITY:
- Turn the speaker on. The speaker will enter Bluetooth mode automatically.
- Activate the phone's Bluetooth functionality and search for the name "Stone 1800" and choose it to carry out the Bluetooth pairing.
- Once paired, you can start playback from the external Bluetooth device.
- During music playback, you can long-press the Next Track/Previous Track button to select songs and short-press the button to adjust the volume.
- You can briefly press the Play/Pause button to pause playback. To resume playback, press the Play/Pause button again.
- Long-press the "Broadcast" Button to disconnect the Bluetooth connection with the mobile device.
Note: If your smartphone is disconnected from the speaker due to shut down or switching mode, the speaker will automatically reconnect your smartphone when it is turned on again or switch back to Bluetooth mode.

AUX MODE:
- Connect one end of the appropriate cable to the AUX input of the speaker and the other to the external device
- When you use the audio cable to connect the device, it will auto-switch to the AUX mode.
NOTE: In AUX mode it is necessary to carry out the operation directly from the connected external device.

USB MODE:
Insert a USB stick into the slot after turning on the speaker, playback will start automatically.
- Press the "Play/Pause" button to pause/resume playback.
- Long press the "Next Track" / "Previous Track" buttons to skip to the next track/return to the previous track.
- Press the "Play/Pause" button to pause/resume playback.
Note:
- Under any playing mode, when you insert a USB disk to the speaker, it will switch to play the USB disk.
- If you use a USB extension cable, the connected storage device may not be recognized or function properly.

POWER BANK FUNCTION:
- Turn the speaker on.
- Connect other devices to the 5V/1A out port via a charging cable.
Note: Due to limited battery size it is suggested that power bank function should be used only in case of emergencies

RESET FUNCTIONALITY:
Insert an insulated pointed object (eg-a toothpick or a pin) into the Reset jack to perform the factory reset and restore the default speaker settings.
Long press the Play/Pause button for 5 seconds, the speaker will turn off and clear the Bluetooth memory.

Note: If the speaker doesn't turn off or doesn't respond properly, you could use the Reset functionality.

CHARGING:
- When the battery is low, the speaker will make a prompt sound, and the red LED indicator will start to blink.
- The charger adaptor is not included in the package, please charge this speaker via a 5V/2A charger or via PC. A Fast charger of 9V/3A is supported as well. During charging, the LED indicator stays solid red; once the charging gets completed the indicator turns off (the device will fully recharge in about 4-6 hours).
Note:
- Please don't use the speaker while it is in charging as it may decrease the battery's performance.
- If the battery is completely discharged, speaker may restart leave it off and recharge it for at least an hour before using it.
- Battery life (up to 4 hours with use at medium volume and RGB light) may vary depending on the listening volume, based on the type of song being played, depending on the selected source, whether the RGB lights are used, and the state of wear of the battery.
- When the battery is low, the speaker will periodically emit a warning tone.
